Skills

 HTML  CSS
 Sass  Gulp
 jQuery  Git
 WordPress  Bootstrap
 Adobe CC  Animation
 Command line
 Cross-browser standards
 Responsive web design
 Accessibility practices
 Working remotely
 Clear communication

Experience

Front End Web Developer

2015 - present

Urban Influence

I fulfill the visions of our talented designers while managing client expectations. I'm quickly mastering WordPress themes, custom post types, and custom fields, and also gaining fast-paced agency experience.

Front End Web Developer

2014 - 2015

Tidal Labs

At Tidal, I grew from my initial skills in CSS, HTML, and jQuery to mastering Sass and Github via command line, and began working with other languages such as PHP, advanced Javascript frameworks like React, and RESTful APIs.

Graphic Designer

2012 - 2014

Freelance

I created branding and design products such as logos, T-shirts, and book covers. I emphasized consistent communication with my clients while self-directing my own deadlines to ensure client satisfaction.

UI Design Intern

2012 - 2013

Jive Software

At Jive, I produced digital and print assets and web design mocks while assisting the user interface and marketing teams. I also gained immensely valuable experience on teams that utilized sprints.

Volunteering

Seattle GiveCamp

2015

I donated my time to OneWorld Now! (a non-profit that helps youth study abroad), helping migrate their previous CMS to a responsive WordPress site.

Education

B.F.A. in Digital Art and Animation

2011 - 2015

DigiPen Institute of Technology
