-  Bootstrap
-  Cross-browser standards
-  Responsive web design
-  Github command line
-  Working remotely
-  Communication & teamwork
-  Photoshop
-  Illustrator
-  Flash
-  Premiere
-  InDesign
-  WordPress

Experience

Front-End Web Developer

2014 - present

Tidal Labs

At Tidal, I develop website user interfaces that capture the designer's vision, while also making crucial responsive and UX choices. I'm steadily gaining experience in feature development and product ownership.

2D Game Art Intern

2014 - 2014

PlayMoolah

I wore many hats in this fast-paced internship, from character design to UI assets, graphic design to Flash animation and video editing. I tackled an incredible variety of challenges all while meeting urgent deadlines.

Graphic Designer

2012 - 2014

Freelance

I created branding and design products such as logos, T-shirts, and book covers. I emphasized consistent communication with my clients while self-directing my own deadlines to ensure client satisfaction.

UI Design Intern

2012 - 2013

Jive Software

At Jive, I produced digital and print assets and web design mocks while assisting the user interface and marketing teams. I also gained immensely valuable experience on teams that utilized sprints.

Education

B.F.A. in Digital Art and Animation

2009 - 2014
