- Sass
- Gulp
- WordPress
- Git
- CLI
- CircleCI
- AWS
- Adobe CC
- Animation
- Cross-browser standards
- Responsive web design
- Accessibility practices
- Working remotely
- Clear communication

Experience

Software Development Engineer II

2016 - 2018

Time Inc.

At Time, I took on challenges from launching new and blazing-fast Node.js brands to spinning up delightful dashboards and headless CMS's. I worked across full-stack APIs and technologies in Drupal & WordPress, end-to-end functional testing and deploying builds with Gulp, CircleCI, & AWS.

Front End Web Developer

2015 - 2016

Urban Influence

I greatly enjoyed tackling a variety of fast-paced challenges in an agency environment, all while managing client expectations and fulfilling the visions of our incredibly talented designers. I produced multiple custom WordPress themes praised for their usability.

Web Developer

2014 - 2015

Tidal Labs

At Tidal, I grew from my initial skills in CSS, HTML, and jQuery to mastering Sass and Github via command line. I also worked on apps in PHP & Laravel, JS frameworks such as React, Backbone, & Underscore, and RESTful APIs.

Volunteering

Board Member at Seattle Indies & IGDA Seattle

2014 - present

I lead two of Seattle's game dev communities and their event & project management and coordination. I had a ton of fun architecting & building their WordPress & Jekyll sites, Meteor apps, and Zapier & Slack automation.

Web Administrator at GeekGirlCon

2016 - present

I handle GGC's IT & InfoSec duties, from WordPress maintenance to GSuite management and audits, as well as volunteering on the day of the con.

Girls Who Code Facilitator

2017 - 2018

With the goal of helping close the gender gap in technology, I mentored a GWC high school club in basic HTML/CSS/JS & industry best practices.

Seattle GiveCamp Hacker

2015 - 2016

I went heads-down at weekend hackathons, creating WordPress themes & interactive pages for charities like OneWorld Now! & Healthy Food America.

Education

B.F.A. in Digital Art and Animation

2011 - 2015

DigiPen Institute of Technology
