- jQuery
- Git
- WordPress
- Bootstrap
- Adobe CC
- Animation
- Command line
- Cross-browser standards
- Responsive web design
- Accessibility practices
- Working remotely
- Clear communication

🌐 Experience

Software Development Engineer
2016 - present
Urban Influence

At Time, I'm being challenged with the creation of both delightful front-end and back-end CMS's. I work across multiple technologies - Drupal, WordPress, Node.js, Gulp, Stylus, Dust.js, and AWS Elastic Beanstalk, while growing my skills in mentorship, pair programming, and code cleanliness as a team.

Front End Web Developer
2015 - 2016
Urban Influence

I greatly enjoyed tackling a variety of fast-paced challenges in an agency environment, all while managing client expectations and fulfilling the visions of our incredibly talented designers. I produced multiple custom WordPress themes praised for their usability.

Web Developer
2014 - 2015
Tidal Labs

At Tidal, I grew from my initial skills in CSS, HTML, and jQuery to mastering Sass and Github via command line, and began working with other languages such as PHP, advanced Javascript frameworks like React, and RESTful APIs.

Graphic Designer
2012 - 2014
Freelance

I created branding and design products such as logos, T-shirts, and book covers. I emphasized consistent communication with my clients while self-directing my own deadlines to ensure client satisfaction.

UI Design Intern
2012 - 2013
Jive Software

I assisted Jive's user interface & marketing teams by producing print & web design products and mocks, while learning agile methodologies.

✋ Activities

Web Administrator at GeekGirlCon
2016 - present
I volunteer as a web admin for GeekGirlCon's WordPress site, a non-profit celebrating women in tech, science, gaming, fiction, and all things geeky.

Seattle GiveCamp
2015
I donated my time to OneWorld Now! (a non-profit that helps youth study abroad), helping migrate their previous CMS to a responsive WordPress site.

Startup Weekend Bellevue
2014
First Place, Visual/UI Developer

🎓 Education

B.F.A. in Digital Art and Animation
2011 - 2015
DigiPen Institute of Technology
